*The figures in the margin indicate full marks.*

**Answer any two questions from the following**

20×2 =40

1. You are the editor of your College Magazine. Your college recently held an event on Preservation of Trees as a part of 'Tree Plantation Programme'. Write a report on the event giving all the necessary details.
2. ABC Corporation, Cooch Behar urgently requires a Sales Manager for which they have placed an advertisement in The North Bengal News. You are Arko/Ankita Roy from 112, Magazine Road, Cooch Behar. Write an application to the General Manager, ABC Corporation, Cooch Behar applying for the advertised post.
3. Write a Precis of the following passage below:

Truly Imagination and untiring enthusiastic efforts of generations build a Nation. One generation transfers the fruits of it's hard work and toil to another, which then takes forward the mission the next level. As the coming generation also has its dreams and aspirations for the nation's future, it therefore adds something from it's side to the national vision which the next generation strives hard to achieve. This process goes on and the nation climbs steps of glory and gains higher strength. Any organization, society or even a nation without a vision is like a ship cruising on the high seas without any aim or direction.

It therefore went deep into the minds and hearts of the masses and soon became the great inspiring and driving force for the people to collectively plunge into the struggle for freedom. The unified dedicated efforts of the people from every walk of life won freedom for the country. The next generation has put India strongly on the path of economic, agricultural and technological development. But India has stood too long in the line of developing nations. Let us, collectively, set the national vision of developed India. It means the major transformation of our national economy to make it one of the largest economics in the world; where the countrymen live well above the poverty line, their education and health is of a high standard, national security is reasonably assured and the core competence in certain major areas gets enhanced significantly so that the production of quality goods rises and brings all-round prosperity for the people.
